

Surveys show that more than 85% of the ESP's for kitchen application failed to be cleaned timely and effectively, thus excess deposits from grease-laden vapors would coat and clog the filter cells, resulting in poorer equipment efficiency and more complaints from local residents over time.

KLEAN auto cleaning device, an optional accessory provided for KLEAN ESP, is a fully automated washing system programmed with user-defined protocols that allows wash parameters to be optimized at the users' convenience, and keeps the ESP functioning at top performance over a relatively long period of time.

Auto cleaning device Specifications

Model	BS-20L	
Size(L*W*H)	600*300*400mm	
Weight	30kg	
Capacity	20L	
Power	1-Phase/220V 50HZ	3-Phase/380V 50HZ
Power of heater	3000w	12000w
Power of pump	750w	
Heating up time	30min/12min(20-70°C, Up50°C)
